D.1.2 BACKGROUND AND EXPERIENCE RELEVANT FOR THE PROJECT TOPIC

Please briefly present your organisation/group (e.g. its type, scope of work, areas of activity and if applicable, approximate number of paid/unpaid staff, learners and members of the group).

The University of Cagliari (UNICA), founded in 1620, is a public state University with about 25,000 students and over 2,000 teaching and technical administrative staff.

It is located in the island of Sardinia-Italy, in the middle of the Mediterranean, and is one of its largest organizations. Given its geographic location, it has consolidated relationships and exchanges with the southern Mediterranean countries, at both students and staff levels.

It is a multidisciplinary HEI offering an interesting and complete education through 6 Faculties (Biology and Pharmacy; Engineering and Architecture; Medicine and Surgery; Sciences; Economics, Law and Political Sciences; Humanities) and 15 Departments.

The community is enriched by an international mix of students coming from foreign HEIs (~ 1,000).

UNICA's students have many opportunities to study abroad, in other leading universities thanks to more than 1000 partnership agreements. Besides that, about more than 100 visiting professors come to Cagliari's University yearly.

The University of Cagliari is member of EDUC - European Digital UniverCity, one of the first 17 „European Universities“ Alliances funded in 2019 by the European Commission with the aim to increase the international competitiveness of European higher education through a shared, integrated, long-term joint strategy for education with links to research and innovation, and to society. EDUC has now 8 partner universities from 7 European countries.

What are the activities and experience of your organisation in the areas relevant for this project?

What are the skills and/or expertise of key persons involved in this project?

Please provide a list of your previous projects for the last 4 years
